System Requirements For Rock Alternative Soundpack:

Xbox One Laptop or Desktop (Windows 7, 8.1, 10) P.S. - If you've ever been able to play a commercial on Microsoft's website, you've probably noticed that it uses a "Netflix-like" format. To be clear, this is NOT the same thing as Netflix. It's just a common thing to do on websites, and most of the time you can't even sign up for the service. However, when a website allows you to play an ad, chances are it will probably work on some video players
